

Application No. 10/816,114  
AMENDMENT AND RESPONSE TO RESTRICTION  
REQUIREMENT dated November 17, 2005  
Reply to Office Action of August 17, 2005

REMARKS

Claims 1-16 are pending in the above-captioned application. In the Office Action, a restriction/election requirement has been made under 35 U.S.C. § 121, requiring Applicant to restrict the application to (or elect) one of the following inventions:

- |                |  |
|----------------|--|
| Invention I:   | Claims 1-10, drawn to a probe station for high resolution, low current probing of a DUT, classified in class 324, subclass 751 |
| Invention II:  | Claims 11-14, drawn to a probe station for testing a specimen, classified in class 324, subclass 754                           |
| Invention III: | Claims 15 and 16, drawn to a method for precision low current probing of a DUT, classified in class 324, subclass 754          |

Applicant hereby elects to proceed with Invention II, Claims 11-14, in the instant application. Thus, Claims 1-10 and 15-16 have been canceled with the understanding that Applicant retains the right to pursue divisional applications covering the subject matter of these claims.

Respectfully submitted,  
FITCH, EVEN, TABIN & FLANNERY
